

ONLY CHEFS

Jobs by Email

If you have a specific vacancy that you want to promote direct to our chef members then our branded jobs by email service is a great way to directly reach a selection of highly targeted candidates over email. You can pin-point suitable audiences using a variety of criteria such as current job title, location, current salary and highest level of qualification.

Emails can be branded using your logo and imagery to give maximum impact, and we facilitate the broadcast of each job email sent on your behalf, providing a full suite of reporting metrics for each campaign.

In addition to broadcasting your job via email, we will also share the opportunity with our Twitter, Facebook, Instagram, Pinterest and LinkedIn social channels for free to add a further boost to your campaign.

We sell our jobs by email service individually or in packs, details listed below:

Single	£95
2 pack	£150
4 pack	£225
6 pack	£300

We currently have more than 6,000 chefs at all levels on our database and this number is growing everyday. Our current focus is the greater London area but our jobs by email service has proved successful for employers recruiting both within and outside of this geographic area.
